Rely on Burdick for quality supplies and customer support to maximize your investment.

Burdick provides a full range of quality accessories and supplies for ECG, Exercise Stress, Spirometry, Pulse Oximetry, Holter Monitors and Ambulatory Blood Pressure Monitors. For reduced retakes and value you can count on, buy quality supplies from Burdick.

Paper

Our Assurance[®] paper provides clear, precise tracings. The HeartLine[™] paper provides quality tracings at an affordable price. Both paper lines are available for the complete Burdick offering.

Electrodes

We also have a variety of electrode options, including our top-of-the-line Blue Max[®] electrodes. They feature highly conductive wet gel for clean tracings with minimal baseline wander and minimal patient preparation.

Warranties

All Burdick products are backed by excellent warranties, reliable service and technical support. Burdick offers a generous loaner program in the unlikely event of a system failure. Factory trained service representatives are available to meet your onsite service needs.

Quality Supplies

Welcome to Burdick.

When you're looking for the right tools for reliable cardiopulmonary patient diagnosis, look to Burdick. We've been a leading supplier of ECGs to physicians' offices worldwide for over 45 years. Today, in our Deerfield, Wisconsin, facility, Burdick designs and develops electrocardiographs that continue to set the industry standard—plus a wide range of related cardiopulmonary diagnostics including PC-based tests.

Patient Focused.

We understand your concerns as a physician in today's healthcare environment. Accurate results. Instant analysis. Easy, convenient access to patient data. Maximum versatility. Simple operation.

Practice Connected.

Because we focus on cardiopulmonary diagnostic testing, Burdick provides solutions to meet the ever-changing challenges associated with the practice of medicine, practice management and patient management.

Count on Burdick to help you reduce the time you spend with equipment and increase time with your patients, provide accurate results the first time and streamline reporting and network access.

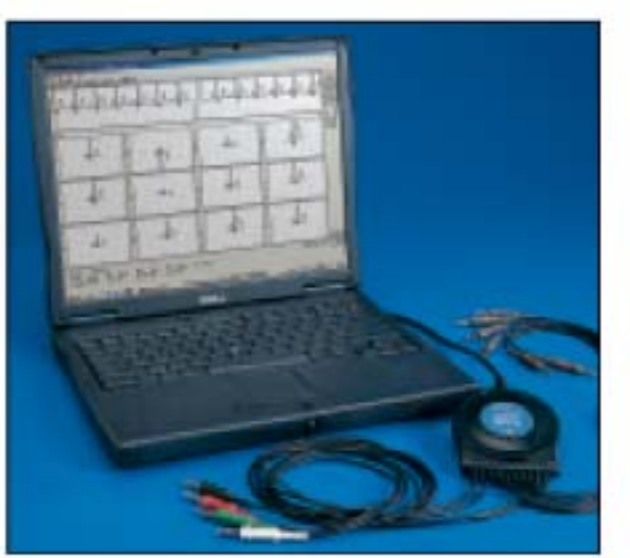

Electrocardiographs

- Configurations available for all medical environments
- Intuitive menus
- Optional interpretation algorithm
- Combine ECG with PC storage for paperless solution
- Fax and wireless communications

PC-based Diagnostics

- Universal ECG™ is portable, easy-to-use and can be interfaced with most EMRs
- SpirOxCard® combines a spirometer and pulse oximeter on a single PCMCIA card, providing two full-featured diagnostic tests
- SpiroCard®, a PC Card spirometer, delivers full-function spirometry

Spirometers

- Choose from conventional handheld spirometers or PC-based devices
- PC Card devices deliver full-function spirometry anywhere, anytime
- Easy to use
- All standard tests available

Exercise Stress Systems

- Intuitive touch-screen features Logistep™ for rapid data input
- Full range of report formats
- T-wave Alternans testing
- Digitally controlled treadmill
- Networking capabilities

ECG Management

- Combines a powerful, true medical device with the convenience of PC storage and retrieval
- Proven Windows® and Acrobat® technology maximizes ease of use
- Diagnostic quality viewing and printing
- A paperless system reduces cost

Holter Systems

- 99.95% accuracy
- QuickStep Wizard guides & instructional videos built in
- Reports ready to print in 90 seconds
- Rapid ROI - average 2 tests per week, system can be paid for within 6 months

Pulse Oximeters

- Digital technology, lightweight and portable
- PC-card based products and conventional handheld devices available
- Neonate through adult monitoring
- Monitoring, Home Care, Sleep Mode

Defibrillators

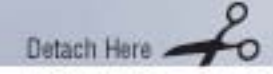

- Automatic daily self-test ensures reliability
- Pre-connected, non-polarized pads eliminate confusion
- One-button operation
- Automatically adjusts to deliver appropriate defibrillation level

Ambulatory Blood Pressure Systems

- Reliable and useful tools help identify white-coat hypertension
- Multiple, scheduled readings for 24 to 48 hours
- Medicare and private insurance approved reimbursement
